

104 energy storage battery box

Overview

MULTIPURPOSE- STORAGE: This battery storage features 104 compartments, allowing you to organize and store up to 36, 45 AA, 8 C, 6 D, 4 9V, and 5 cell batteries (not included) in one convenient place. Clear labeling access and identification of your 104 kWh air-cooled battery cabinet – Reliable and modular lithium-ion storage with an efficient battery management system (BMS). Optimal air cooling ensures a long service life and stable performance for commercial and industrial applications. Individual offer for a complete system?

Best. 5015KWh Liquid Cooling energy storage system based on domestic high-capacity 314Ah energy storage cells, consisting of a 104S long PACK, battery cluster units, battery management systems, fire protection systems, lighting systems, thermal management systems, electrical systems, and environmental. The CESS 209-104 is designed for applications where flexibility and reliability are key. From grid amplification and peak shaving to load square buffering.
