

12kW step-down inverter price

Overview

Market Positioning Sweet Spot: 12kW inverters occupy the optimal balance between residential and commercial applications, providing sufficient capacity for whole-home backup power while remaining cost-effective, with quality units ranging from \$2,899 to \$7,500 in 2025. A 12kW solar inverter is a popular choice for medium-sized homes and small businesses. But prices can vary widely—from \$2,000 to \$5,000—depending on these factors: **Inverter Type:** String inverters are cheaper than microinverters or hybrid models. **Technology Maturation:** Modern. The Deye SUN-12K-SG05LP3-EU-SM2 is a powerful 12kW 3-phase hybrid solar inverter designed for low voltage 48V battery systems. It supports off-grid, on-grid, and backup applications with seamless switching and built-in WiFi. Available for purchase online as few as 1 unit, available in large volumes. Perfect for solar systems and.
