We do not have price for this product yet, please contact your manager! We do not have price for this product yet, please contact your manager!The global market for 10A miniature circuit breakers (MCBs) continues to expand, driven by increasing urbanization, infrastructure development, and the growing demand for reliable electrical protection across residential, commercial, and industrial sectors. Current estimates place the miniature circuit breaker market at over \$5 billion annually, with projections indicating a CAGR exceeding 6%. The circuit breaker 10a stands as an indispensable component in safeguarding electrical systems by interrupting current flow during a fault condition. Its primary function is to ensure the safety of electrical appliances and installations from the damage that can occur due to excessive current.
