

Commercial energy storage cabinet integrated system

Overview

Featuring lithium-ion batteries, integrated thermal management, and smart BMS technology, these cabinets are perfect for grid-tied, off-grid, and microgrid applications. Explore reliable, and IEC-compliant energy storage systems designed for renewable integration. HDRE has invested in establishing an energy storage equipment manufacturing plant to advance localized production and deliver products tailored for diverse application scenarios. Designed to support grid-tied and off-grid scenarios, the Hybrid ESS cabinet offers seamless integration and maximized space utilization, making it an ideal choice for growing energy. Sigenergy C&I energy storage system helps businesses and communities of all sizes move to clean renewable energy. A 107 kWh-rated energy storage solution with 49.9 kW battery inverter options and an integrated backup-ready capability**.
