

Dakota lithium 23ah

Overview

Engineered with Lithium Iron Phosphate (LiFePO₄) technology this battery has twice the power, half the weight, and lasts 4 times longer than a sealed lead acid battery – providing exceptional lifetime value. 23 Amp hours of capacity provides a full day of power for high amp draw. These batteries are fully tested and ready to perform, but may show minor cosmetic wear such as light scuffs, case marks, or label wear from returns, handling, or installation. Many were briefly installed before a customer realized they needed a different size or setup. Get access to exclusive deals, hear about new products before anyone else, and enjoy tips, tricks, and DIY hacks from our community of experts. Built Dakota tough, this 12 volt lithium battery packs a big punch. 0 waterproof plugs, standard F2 Terminals, and an integrated volt meter, this LiFePO₄ battery offers the freedom, strength, and reliability to GoFurther and PlayHarder even in the most extreme conditions.
