

Electric vehicle incentives trinidad and tobago

Overview

Under the new regime, EVs with a cost, insurance and freight (CIF) value exceeding \$400,000 will now attract a ten per cent customs duty, a 12.5 per cent VAT, and a tiered motor vehicle tax. T&T's government has made commitments to lower CO2 emissions by 15% by 2030 under the Paris Accord and re-affirmed those during UN COP 26 in November 2021. To make this possible, in October 2021, the country's Minister of Finance stated that the government will remove all customs duties, motor. Finance Minister Davendranath Tancoo, in presenting the budget on Monday, announced a suite of tax reforms in the automotive sector, aimed at striking a balance between environmental responsibility, economic prudence and public accessibility. Among the most notable changes is the introduction of. As the world shifts towards sustainable transportation, the feasibility of establishing a robust electric vehicle (EV) charging network in Trinidad and Tobago becomes increasingly crucial. 16 of 2021 was amended to provide that all taxes be waived in respect to new and used electric vehicles that do not exceed two years from the date of manufacture. Additionally, by Legal Notice Numbers 109, 110 and 111 of 2022, all taxes are waived on.
