

How much does solar panels cost in the Philippines

Overview

Solar panel systems in the Philippines cost ₱165,000 to ₱1.8 million, depending on size and type (grid-tied, hybrid, or off-grid). A typical Filipino household using 300–450 kWh/month usually needs a 5 kW to 7 kW system, costing ₱280,000–₱460,000 for grid-tied and ₱375,000–₱650,000 for hybrid. ROI, savings, and net metering explained. Based on recent, credible market data: Small to Medium Systems (3 kWp): Suitable for small homes or modest daytime electricity usage. This usually means about six solar panels, and you'll need around 20 square meters of roof. With electricity rates in Metro Manila now hovering around ₱11–₱13 per kWh, mas maraming homeowners ang sineseryoso na ang solar. Pero ang pinakamataas na tanong palagi: magkano ba talaga?

Hindi simpleng sagot yan. The cost depends on your roof, your consumption, the brands you choose, and whether.
