

Lithium Battery Energy Storage Conference

Overview

IMLB 2026 is the premier international conference on the state of lithium battery science and technology, as well as current and future applications in transportation, commercial, aerospace, biomedical, and other promising sectors. Upcoming Events
Subscribe to the ILiA Calendar Outlook Calendar Google Calendar If you are a conference organiser and your event is related to lithium, would be of value to the lithium community, and you'd like it to be included in our calendar, please contact events@lithium. Eric Norris, Chief Commercial Officer at Albemarle, confirmed for Executive Keynote Panel Hear from one of the world's leading lithium producers as this executive keynote panel examines supply security, storage demand, policy shifts and the new geopolitical playbook shaping the battery raw. ► EnerOne to Next-Gen: The Technology Roadmap for Sustainable and Ultra-Long Life Battery Storage ► Unlocking the Future Energy Storage Value Through Cell-to-Grid Co-Design ► European Battery Energy Storage Technology Pathways and Strategic Choices in a Multi-Dimensional Race ► How to Match. As Germany accelerates toward 24GW of utility-scale storage by 2037, asset owners and developers face a new reality: grid congestion, revenue cannibalisation and evolving market mechanisms. Energy Storage Summit Germany 2026, co-located with The Battery Show Europe, focuses on how storage assets. From e-trucks to utility-scale storage: Laurent Segalen & Stefan Müller discuss falling battery costs, grid management, and BESS financing. How Do We Make It Through “Dark Doldrums”?

How can we secure power supply during “dark doldrums”?

One's Carsten Pfeiffer on storage, flexibility and the. Bruno Scrosati was a pioneer o...

Article Content

Lithium Prices, Lithium metal spot price, Lithium

SMM brings you the current prices and historical price charts of lithium, such as lithium carbonate futures price, lithium carbonate spot price,

Energy Storage Summit

Three high-impact days where partnerships form, deals close and where the future of energy storage begins. The Energy Storage Summit is where decisions get made, ideas sharpen,

Home | Europe Battery Energy Storage Summit 2026

In this context, battery energy storage have emerged as critical enablers - providing indispensable services including energy time-shifting, frequency regulation, and grid resilience that make high

A closer look at CATL's new sodium-ion battery

The company presented the product on April 1 under the theme “sodium and lithium dual stars creating full-scenario energy storage solutions.”

BatteryTech News & Updates — 2026 #17

Hello Battery-Tech community and professionals. Here is your weekly update on major developments in the global battery industry, energy storage, and EV market. This week features a

IMLB 2026|IMLB Meeting | International Meeting on Lithium Batteries

IMLB 2026 is the premier international conference on the state of lithium battery science and technology, as well as current and future applications in transportation, commercial, aerospace, biomedical, and

Fastmarkets Global Lithium, Battery & Critical Materials

A flagship annual meeting for senior leaders across lithium, battery and critical materials, focused on deal-making, supply security and EV and ESS markets.

Trade Fairs, Conferences & Meetings

Trade Fairs, Trade Shows, Conferences & Meetings dedicated to the Battery Industry and Batteries

Energy Storage & Battery Industry Events | BEST Magazine

Formerly known as the Lithium Supply and Battery Raw Materials Conference, the event has evolved to reflect the growing convergence of lithium markets, battery materials, energy storage and critical

Lithium-ion batteries and the future of sustainable energy: A ...

Abstract Lithium-ion batteries (LIBs) have become a cornerstone technology in the transition towards a sustainable energy future, driven by their critical roles in electric vehicles,

ees Europe - Home

From e-trucks to utility-scale storage: Laurent Segalen & Stefan Müller discuss falling battery costs, grid management, and BESS financing.

Chinese battery maker CATL expects energy storage to make up half

China's CATL, the world's biggest battery maker, expects energy storage to account for half of its global sales by 2030, up from 25% now, a company executive told Reuters on Thursday.

Lithium Supply and Battery Raw Materials Conference

Running alongside the main program, Battery & Energy Storage 2026 connects the upstream lithium and battery raw materials supply chain with grid-scale buyers,

China's Lithium Carbonate Futures Snap One-Month Drop to Rise on Energy ...

(Yicai) June 15 -- China's most actively traded futures contract for lithium carbonate ended a near one-month decline last week, supported by growing demand for energy storage, new energy

Battery & Critical Minerals Intelligence | Benchmark

Current IOSCO-assured prices for lithium, cobalt, nickel, graphite & batteries.. Mine-to-grid supply chain intelligence & forecasts from the world's largest analyst

International Symposium on Beyond Lithium-Ion Batteries 2026

Building on past success, BeLi26 will reunite the global community driving beyond-Li-ion energy storage. It will foster connections across science, technology, manufacturing, policy, and

KULR Technology | Battery Safety & Thermal

KULR's proven expertise in thermal management and energy storage solutions makes them an ideal partner for this project. By combining Amprius' advanced

Lithium Battery Manufacturer for EV & ESS Solutions

REPT BATTERO, a top lithium-ion battery manufacturer, delivers advanced energy storage solutions and EV batteries to support sustainable

Built for the German Energy Storage Market

Energy Storage Summit Germany 2026, co-located with The Battery Show Europe, focuses on how storage assets will operate, optimise and monetise in this next

International Energy Storage Materials Conference

The conference will focus on all types of energy storage materials and their devices. Plenary and invited talks from well-known experts across
