

Long-life Smart Photovoltaic Energy Storage Battery Cabinet for Data Centers

Overview

This cabinet-style energy storage battery is tailored for overseas commercial and industrial scenarios, from small workshops to data centers, combining robust safety, ultra-long durability, and all-environment adaptability. The Vertiv™ EnergyCore Li5 and Li7 battery systems deliver high-density, lithium-ion energy storage designed for modern data centers. Purpose-built for critical backup and AI compute loads, they provide 10-15 years of reliable performance in a smaller footprint than VRLA batteries. Safety is guaranteed by a built-in intelligent BMS that monitors voltage. COLUMBUS, Ohio-- (BUSINESS WIRE)-- Meeting the urgent need for solutions supporting high-density computing in increasingly crowded data center facilities, Vertiv (NYSE: VRT), a global provider of critical digital infrastructure and continuity solutions, today introduced Vertiv™ EnergyCore battery.
