

Microgrid Association

Overview

The International Microgrid Association supports organisations building global microgrid capability by integrating emerging energy and information technologies to generate, distribute, and consume energy more efficiently, cleanly, and cost-effectively. Consistent messaging to stakeholders who care about microgrids. Identify and champion. Microgrid Initiatives was established as Microgrid Institute 2013 to chart pathways toward a more sustainable and resilient future with advanced microgrids and distributed energy resources. Since 2013, MRC has advanced microgrids, through advocacy and education, to provide a level playing field for their deployment and operation. The MRC is a national. AMDA is the pan African industry association representing private sector minigrid developers and allied partners, working to make Africa's minigrid market investable, scalable, and central to universal energy access. AMDA serves as the unified and credible voice of the sector, advancing the policy.

Article Content

The Microgrid Resources Coalition

The MRC's members are actively engaged in developing microgrids in various regions of the United States. MRC members have deployed sophisticated

About MRC

About the Microgrid Resources Coalition Formed in 2013, the Microgrid Resources Coalition (MRC) is a non-profit organization comprised of owners, operators, developers, suppliers and investors in the

Microgrid Resources Coalition

The Microgrid Resources Coalition (MRC) is a national association of leading microgrid owners, operators, developers, suppliers, and investors seeking to advance microgrids.

Microgrids State Working Group

The Microgrids Working Group is hosting facilitated discussions between State Energy Offices and PUCs to explore microgrid technologies and applications, policy and regulatory frameworks, and

People & Society

The Mass. Microgrid Association was founded after seeing well-intended property owners, community organizations, and utilities struggle with the complexity of the clean energy transition.

MICROGRID INITIATIVES

Microgrid Institute is a collaborative organization supporting development of microgrids and distributed energy assets around the world. Our efforts address market development and analysis, regulatory

Microgrids Across the US | Clean Coalition

Discover Microgrids Across the United States with Clean Coalition. Learn how they revolutionize energy distribution.

People & Society

Mass. Microgrid Association Helping Communities Drive Local Electrical Grid Advancement Join Our (rare) Mailing List Our Mission More Clean Energy Power

Microgrid Knowledge 2026

From resilient infrastructure to sustainable solutions, Microgrid Knowledge 2026 will showcase how decentralized energy systems are keeping us

Microgrid Equity Coalition

Microgrid Equity Coalition Bringing energy decisions and jobs to local communities
Solar installation by Los Muertos Crew. What is a microgrid? Microgrids are

Current/OS

Current/OS is defining standards for DC Microgrids. As a nonprofit, open partnership of electricity stakeholders and manufacturers, we are

WA-Based Industry-First Association to Accelerate Microgrid Growth

The newly-formed International Microgrid Association (IMA) is based in Perth, Western Australia. WA is home to one of the largest microgrid networks in the world, with founding IMA

Microgrid Consortium

Microgrid Consortium This coalition of rural electric cooperatives seeks to develop resilient, reliable and economically beneficial microgrid and storage projects for

MRC Member Flyer Final

The Microgrid Resources Coalition (MRC) is a national association of leading microgrid owners, operators, developers, suppliers, and investors, working to create a level playing field for microgrid

WHITE PAPER: MICROGRID AS A SERVICE (MaaS) -

What is Microgrid as a Service (MaaS)? A service model where a third party builds, operates, and maintains localised microgrids, reducing upfront costs and

Join the IMA

The International Microgrid Association is committed to growing and developing microgrid ideas across the world.

MICROGRID INITIATIVES

Microgrid Initiatives was established as Microgrid Institute 2013 to chart pathways toward a more sustainable and resilient future with advanced microgrids and distributed energy resources.

Microgrids for Community Resilience, and Climate Action

“When the Colorado Department of Local Affairs (DOLA) Microgrid for Community Resilience (MCR) planning grants were made available for local electric cooperatives like SMPA, several of our

Microgrids

Microgrids are local electrical systems that combine retail loads and distributed generation. A microgrid may include integrated management of thermal and electrical loads, thermal and

Microgrid Overview

Microgrid Overview A microgrid is a group of interconnected loads and distributed energy resources within clearly defined electrical boundaries that acts as a single controllable entity with respect to the

Minigrid Development in Africa

AMDA is the pan African industry association representing private sector minigrid developers and allied partners, working to make Africa's minigrid market investable, scalable, and
