

# Middle east solar battery cabinet investment

## Overview

The Middle East and Africa present significant investment opportunities in outdoor battery energy storage integrated cabinets driven by the region's expanding renewable energy projects, particularly solar and wind farms. According to Sofia Bensaid, Director of Infrastructure & Project. The Middle East and Africa Battery Energy Storage System (BESS) Market Report is Segmented by Battery Type (Lithium-Ion, Flow Batter, and More), Connection Type (On-Grid and Off-Grid), Component (Battery Pack and Racks, Energy Management Software, and More), Energy Capacity Range (10 To 100 MWh. Outside companies are expected to invest in the country's BESS sector once they've completed solar projects. Saudi Arabia and the UAE have emerged as two of the world's most prominent energy storage markets, with mega-scale projects announced and moved forward at a staggering pace. In March 2025, GSL ENERGY successfully installed four 120kWh high-voltage rack battery energy storage systems in the Middle East, a total of 480kWh of energy storage capacity.
