

The price of washing solar panels and photovoltaic panels

Overview

Professional solar panel maintenance costs between \$390 and \$720 per year, with cleaning starting at \$200 and inspections running \$150 to \$300. Your system size and panel type determine maintenance frequency, with larger systems requiring more time and labor than smaller. For most homeowners, you can generally expect the solar panel cleaning cost to fall between \$5 and \$10 per panel, but specialized services for very large or complex arrays might have a different pricing structure. What is the biggest factor that determines the final cleaning price?

The total number. Spending a few hundred dollars up front can keep thousands of kilowatt-hours flowing—and prevent warranty disputes down the road. This guide unpacks everything you need to know before booking a service. You'll see exactly what a maintenance visit includes, how often each task should be scheduled. In January 2026 the estimated cost to Clean Solar Panels starts at \$129 - \$163 per panel. Use our Cost Calculator for cost estimate examples customized to the location, size and options of your project. Check with a local pro for your specific job. An average residential solar system has 15 to 25 solar panels.
