

Turning photovoltaic panel lift

Overview

This photovoltaic panel elevator is developed to address the challenges in lifting photovoltaic panels, glass, building materials, and other goods. It aims to offer a safe, efficient, and time-saving lifting solution for workers, especially in scenarios like villa tile house. Photovoltaic Panel|Lift|Adjustable Height Range:Customizable height from 4m to 25m, ensuring versatile use for various roof inclines. Warranty & Support:Comprehensive 1-year manufacturer warranty with free parts and shipping support. Thickened Square Steel High Temperature Forging:Constructed with thickened square steel, the lift platform withstands high temperatures for durability. Load-bearing Capacity of 300kg:Capable of lifting up to 300kg, this lift is ideal for handling heavy solar panels and modules. Versatile Height. TAWI solar panel lifting equipment removes the physical strain of manual lifting and ensures secure handling of fragile panels. By using vacuum technology, panels can be lifted, tilted, and positioned with precision. Shipping fee and delivery date to be negotiated.
